6th July 2021

Dear Resident

7 Day Notice of Drainage repairs

You may recall throughout April surveys to the drainage systems of the 9 blocks were carried out.

These surveys have highlighted some repair works that need to be completed.

Below is a breakdown of the repair works that will start 13/07/2021 and take around 10 weeks.

- All works will be completed from the jetting tanker which will be located close to pipeline being repaired.
- The area will be barriered off by the jetting team.
- All works will be done in the residential carpark and the location will vary daily around the respective building.
- The works will have minimal effect on resident access around the buildings.
- There will be noise from the truck mounted generators and jetting equipment.

If you would like more detail about the type of work carried out please see visit:
